

To ERASMUS+MELINC " Teachers training for inclusion in Mongolia" project
team:

Mongolian National Council for Disabilities is advocacy organization of 106000 people with disabilities in Mongolia. Our vision is a society for all where people with disabilities have the same opportunity as others. We influence and advise the Government in formulating policies and laws in order to promote people with disabilities to participate in social life.

The video content your project team prepared about inclusive education is very useful and important in our society, because at the moment we don't have enough information and training materials about inclusive education.

We would like to thank your team for the contribution to inclusive education in Mongolia.

We wish that your team would continue the good work and include more people in your project in the future.

Sincerely:

Chairperson of the Mongolian National Council for Disabilities

M Bayasgalan
